

Tushar Patil

FullStack Software Developer | Java | SQL | Web Technology | Rest APIs

+91-8591604077 | tusharpatil4077@gmail.com | [LinkedIn/Tushar Patil](https://www.linkedin.com/in/Tushar Patil) | [GITHUB](https://github.com)

Summary

Enthusiastic Software Developer with a strong foundation in Core Java, SQL, Web Technologies (HTML, CSS, JavaScript), REST APIs, and Object-Oriented Programming. Experienced in developing web applications and database-driven solutions through internships and academic projects. Passionate about writing clean, efficient code and eager to contribute as an Associate Software Developer.

Skills

Programing Languages: Core-Java, SQL, JavaScript

Web Technology: React.js, HTML, CSS, JavaScript

Backend: Core Java, REST APIs, Spring, Node.js

Database: MySQL, MongoDB

Core CS: OOP, Exception Handling, DBMS, Multithreading, Collections, JDBC, SDLC

Tools & Platforms: Git, GitHub, Linux, Eclipse IDE, VS Code

Experience

Full Stack Developer Intern React.js, Node.js, REST APIs, Firebase, Git, GitHub Jun 2025 – Aug2025

- Developed and optimized **10+ responsive frontend components** using **React.js**, improving performance and enhancing the user experience while collaborating with the team using **Git/GitHub**.
- Designed, developed, and integrated **8+ RESTful APIs** using **Node.js**, enabling seamless frontend-backend communication while following **Agile** and **SDLC** practices.
- Debug and Resolve 20+ production issues through systematic **troubleshooting** , improve stability and reliability.

Projects

Online Banking System: | Java, Spring Boot, Spring Security, MySQL, Hibernate, REST API Aug–Oct 2025

- Developed a full-stack **Online Banking System** using Core Java, Spring Boot, Hibernate (JPA), and MySQL to provide secure digital banking and account management services.
- Implemented core banking features including user registration, account management, **balance inquiry, fund transfers, deposits, withdrawals**, and transaction history with reliable transaction processing.
- Designed and integrated **Spring Security, JWT authentication**, and role-based access control (RBAC) to ensure secure user authentication and authorization.
- Built and consumed **RESTful APIs** using **Spring Boot** and **Hibernate (JPA)** for efficient communication between the frontend and backend.

Smart Police Complaint System: | React, Node.js, Socket.io, MongoDB, REST APIs | [GitHub](https://github.com) Apr 2026

- Developed a full-stack Smart Police Complaint System using React.js, Node.js, Express.js, and MongoDB to streamline digital complaint registration and case management.
- Implemented **AI-based complaint classification** using **Naïve Bayes** and **Natural Language Processing (NLP)** to categorize complaints, determine urgency, and automate case prioritization.
- Built a **real-time notification** and complaint tracking system using **Socket.IO**, enabling citizens and police officers to receive instant status updates.
- Integrated **JWT authentication, OAuth**, and **REST APIs** to provide secure role-based access control and communication between frontend and backend.

B.Tech. Computer Science Engineering

Bharati Vidyapeeth Deemed University (DET), Navi Mumbai

New Bombay City School SSC Maharashtra Board, Navi Mumbai

Karmaveer Bhaurao Patil HSC Maharashtra Board, Navi Mumbai

Graduated: 2026

CGPA: 9.6 / 10

Per :80.40%

Per: 55%

Certifications

- Certification in the Open Project Competition “**Tech Tashan – Smart Soch, Smart Solutions**”.
- Certification of **Publication** in **International Journal** for Multidisciplinary Research.
